**Disciplina: FIS726 - História das Ciências Físicas no Século XX**

**Créditos:** 04 – 68 horas

**Ementa:**

História da criação da física quântica, com especial atenção aos impactos científicos, tecnológicos, conceituais e filosóficos desta teoria científica. O curso explorará a historiografia da física quântica de modo a propiciar tanto uma reflexão sobre o objeto da historiografia, no caso esta teoria científica, quanto uma discussão sobre a historiografia das ciências.
