**Disciplina: FISD04 - RAÇA E RACISMO NA HISTÓRIA DA CIÊNCIA**

**Créditos:** 04 - 68 horas

**Objetivo:**

A disciplina tem como objetivo introduzir aos estudantes na história dos discursos e práticas científicas orientados pela ideia de “raça biológica” desde as suas origens até as suas reconfigurações na contemporaneidade. Também serão exploradas as articulações interdisciplinares desse estudo histórico com a filosofia da ciência, o ensino de ciências e a educação para as relações étnico raciais, incluindo a realização de resumos e “materiais curriculares educacionais” a partir dos textos discutidos por parte dos estudantes.

**Ementa:**

O curso consiste num seminário de introdução à história do racismo científico e do conceito biológico de raça na história das ciências desde as suas origens até as suas (re)configurações contemporâneas na era da genômica, abordando também as articulações interdisciplinares das narrativas científicas sobre a raça com a filosofia da ciência, o ensino de ciências, e a educação para as relações étnico raciais.
